

## Coloured light units FL 2000 K / FL 2001 K

### FL 2000 K

Coloured light unit with four special fluorescent lamps ea. 18 W in colours red, yellow, green and blue. For the fixing onto or in the cabin ceiling or wall. Hinged frame of Abachi wood, which is easy to mount and provides low-maintenance. Structured single pane of safety glass for optimal dispersion of the light spectrum and resulting in consistent illumination of the sauna cabin.

### FL 2001 K

Coloured light unit like FL 2000 K, but with four special fluorescent lamps ea. 36 W in colours red, yellow, green and blue.

**Both coloured light units can be used with the control units 60 FL, ECON F1, EMOTEC C55, EMOTEC DC 9000\*, EMOTEC HIC 75\* and EMOTEC HCS 9003\*.**

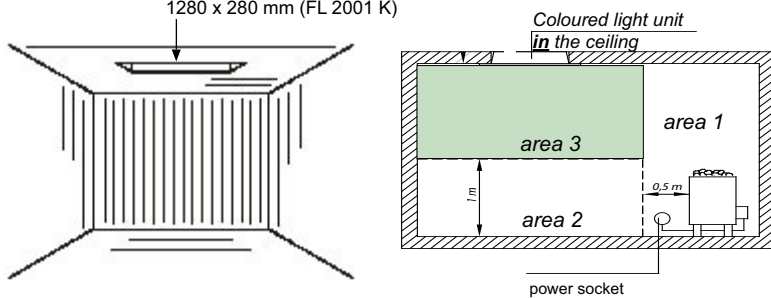

\* together with optional module for coloured light controller

MADE IN GERMANY

### Installation in the cabin ceiling (only in area 3)

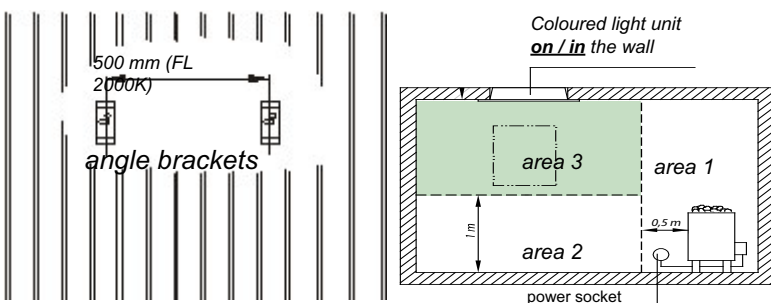

Rectangular opening 670 x 280 mm (FL 2000 K)  
1280 x 280 mm (FL 2001 K)

### Technical data

FL 2000 K, Art.-No. 94.4233  
4 special fluorescent lamps ea. 18 W  
Dimensions: LWD 740 x 300 x 90 mm  
Installation opening: 670 x 280 mm  
Voltage: 230 V 1N AC 50 Hz  
Power consumption: 80 W  
Weight: approx. 8,6 kg

### Installation on the cabin wall (only in area 3)

FL 2001 K, Art.-No. 944289  
4 special fluorescent lamps ea. 36 W  
Dimensions: LWD 1350 x 300 x 90 mm  
Installation opening: 1280 x 280 mm  
Voltage: 230 V 1N AC 50 Hz  
Power consumption: 160 W  
Weight: approx. 11,5 kg
