EOS

True sauna experience with quality products made in Germany

EOS is characterized by a perfect interaction of extensive know-how and a passion for design, performance and safety.

With our products we set the benchmark for sauna equipment of the **superior and luxury class** on the international markets. Our expertise has always been the base for our constant success **for more than 80 years**. Our innovative strength ensures the satisfaction of the individual wishes of our customers on the **highest quality level**.

100% made in Germany - we develop and produce our products exclusively in Germany.

The development process of each product is our top priority therefore all our prototypes go through extensive tests and measurements. For approvals and certification of our products we work together with the leading internationally acknowledged testing and certification authorities. Specific products have been selected and optimized for the North American market and certified to UL and CSA standards.

In the manufacture of our products, we rely on the combination of modern production facilities and elaborate manual work. All products are manufactured by competent and highly motivated specialists using the highest quality materials.

The EOS product portfolio contains trendsetting luxury electric sauna heaters and corresponding sauna controls for private and commercial sauna facilities. Ease of use, conformity to standards and maximum product safety are mandatory for us. Excellent and durable products guarantee relaxation and well being in **more than 80 countries all over the world**.

EOS Mythos S35/45

The EOS Mythos is an exclusive, award-winning sauna heater for design-oriented sauna cabins.

It impresses with a well thought-out construction down to the smallest detail and a diverse design selection. Its distinctive cubistic shape makes it a real eye-catcher.

You can choose from the various elegant color variants in the power outputs 7.5KW, 9.0kW, 12.0kW and 15.0kW: anthracite pearl effect with brushed stainless steel front or alternatively completely in anthracite, matt black or white finish.

The cubistic design is completed by the unique Cubius stones (black and white version in matching finish).

Further Cubius variants, colors and heights are optionally available, which offer individual design options.

Innovative Cubius stones are manually cut of solid natural soap stone. Literally ‘carved in stone’ you can enjoy your infusions for much longer using one or several Cubius Loop stones. Cubius and Cubius Loop stones are a great way to enhance your sauna experience!

Available either without any finish or in various colors. This allows you to add your own individual touch to the design of your sauna heater by using different heights, variants and color combinations.

For more safety in the sauna, the optional mounting brackets for a 4-sided safety guard rail are available.

EOS Gracil | EOS Gracil W

The EOS Gracil series impresses with its very space-saving and straight-lined design and is perfectly suited for modern upper-class saunas.

The slim-depth sauna heaters for dry Finnish saunas are available in the power outputs 6.0kW, 7.5kW and 9.0kW as wall-mounting or as floor-standing models. The wall-mounting model has a depth of only 0.9ft / 27.5cm and the floor-standing model even only 0.8ft/25cm depth.

Full size rock store with up to 20kg/44lbs volume.

The rear side panel of the floor-standing model is coated in the color of the outer shell, which allows free positioning of the EOS Gracil in front of glass walls.

You can select between the color variants anthracite pearl effect or noble matt black finish.

The wooden safety guard rail is optionally available.

EOS Cubo Avantgarde

EOS Cubo Avantgarde is a premium-class sauna heater for dry Finnish sauna. It impresses with its striking, distinctive design thanks to the stylish rock store extension frame with white sauna stones - the specially designed top section holds up to 10kg special rounded white quartz stones.

Furthermore, the EOS Cubo Avantgarde has a uniform appearance on all sides. The luxurious matt black finish on all side parts including the top perfectly completes the design and makes it ideal for installation in the center of the sauna cabin or in front of glass panels.

The floor-standing sauna heater with modern cubistic and very space-saving construction - with only 40×39cm/1.3×1.3ft footprint - is available in the power outputs 7.5kW, 9.0kW, 10.5kW and 12.0kW.

For more safety in the sauna, the optional mounting brackets for a 4-sided safety guard rail are available.

The rock store fits approx. 35kg/77lbs sauna stones. The delivery includes 10kg/22lbs white quartz stones, as well as 25kg/55lbs regular diabase sauna stones which are placed beneath in the rock store.

Optional mounting brackets for safety guard rail (4-sided).

Set of special white quartz stones included in delivery.

EOS Invisio Midi

EOS Invisio is a special range of the unique concealed „underbench” sauna heaters.

These sauna heaters are installed under the sauna benches with a partition wall with only a 10cm/4inch gap to the main sauna wall.

Thanks to their construction and unique installation Invisio heaters offer high safety standards and save a lot of valuable space in the cabin.

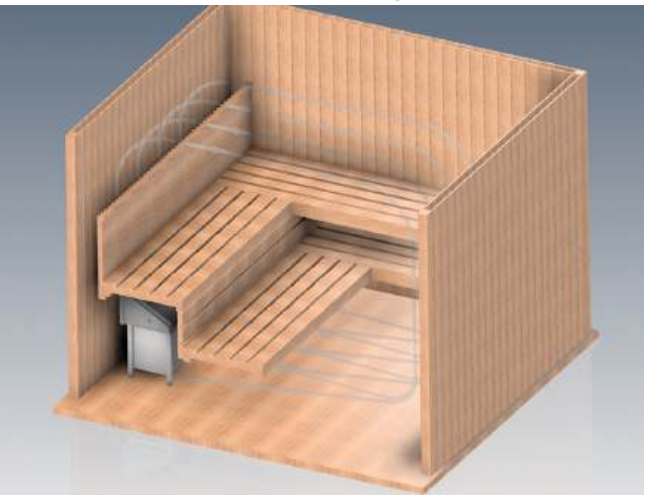

There is no more risk of accidentally touching the heater and your sauna will look more spacious inside.

In spite of the hidden installation traditional water splashes are of course still possible. The special gutter inside the heater spreads the water over the entire heater width to ensure quick evaporation.

The compact EOS Invisio Midi is ideal for dry Finnish sauna operations. Adjustable height, no contact between sauna stones and heating elements. The concealed „underbench” sauna heaters are available in the power outputs 6.0kW, 9.0kW and 12.0kW.

All Invisio heaters include a stainless steel water funnel with silicone tube, as well as a pre-mounted cable, safety cover protection grill and water infusion set.

Rock store fits approx. 20kg/44lbs stones.

Application and installation example with EOS Midi

Water infusion funnel with silicone hose are included.

Connection on the left or right side possible.

EOS Touch3 USA/CAN

The touch screen control system can control both dry and humid sauna operation at the highest level of demands. A true "high end class" experience for your entire spa, whether for private or commercial use.

Control of up to 8 cabins from just one display panel (using extensions) - one control panel provides fast, simple and easy access to all connected cabins and their functions.

The capacitive color touchscreen display with the patented graphic user interface and menu navigation in 20 languages take the operation to a completely new level of comfort. Smart guided setup, on-site update possibility, and fine tuning tools - leaving literally no wish unfulfilled.

You can select between three designs: either black, white or with an individual glass frame. The **'EOS Touch3 Individual'** offers infinite design possibilities - create your favorite design!

Additional practical functions such as the EOS Spa Control App, etc. can be easily enhanced with optional modules. Further functions, e.g.:

- Temperature control range: 30-90°C/86-194°F
- Humidity control
- Output for ventilation fan and cabin light
- Display panel with screen saver and sleep mode
- Holiday home mode and display lock per pin code
- Firmware updates possible on site

Three designs are available:
black, white or individual design

Incl. power box

EOS Touch 3 Individual
Design examples

EOS EmoTec D/H USA/CAN

The advanced control unit combines smart features and cutting-edge engineering with simplicity and comfort in use, setting the quality benchmark both in the private and in the commercial sector.

It has a flat control panel with a TFT color display as well as a separate power box, which can be installed at a separate location.

While the EOS EmoTec D is only for dry sauna operation, the EOS EmoTec H is available for dry and humid sauna operation (for heaters with vaporizer). Both versions consists of a remote control panel, a separate power box and a digital temperature sensor with high limiter fuse.

You can select between three designs: either anthracite/silver, anthracite/black or white/silver.

Three designs are available:
anthracite / silver, anthracite / black or white / silver design

The control unit features a large scope of advanced functions, e.g.:

- Temperature control range:
30 - 90 °C / 86 - 194 °F
- Humidity control (only for EOS EmoTec H)
- Output for ventilation fan and cabin light
- Display panel with screen saver and sleep mode
- Holiday home mode and display lock per pin code
- Firmware updates possible on site

Incl. power box

EOS Emergency button

Safety system for sauna and infrared cabins. The emergency button allows to switch off the sauna heater via the overheating safety circuit. Additionally in case of an emergency an alarm via an optional signaling equipment may be triggered, e.g. to draw attention of the supervising staff in a remote location.

Available with or without
cover plate made of beech wood

Sauna control units

EOS App module NA

Comfortable remote sauna control from your mobile device from any place world-wide (internet access required).

With the **EOS Spa Control App**, sauna cabins can be conveniently controlled from your smartphone or a tablet PC through the EOS App module NA while on the move.

The App features different preset profiles, which can be customized with just a few clicks.

A quick check of the current temperature or remaining heating time is easily possible.

The App will automatically detect the paired sauna control unit and adjust its interface for a simple and intuitive operation. Currently supported mobile devices are: Android and Apple iOS.

Compatible control units: EOS EmoTec D/H and EOS Touch 3 USA/CAN series.

UL certified.

Delivery does not include a mobile device.

for mobile devices

EOS Scent Trophy W

A subtle elegance in your sauna - yet the Scent Trophy W is more than just a stylish accessory. It fills your sauna with wonderful scents, helping to turn each sauna session into a special experience.

It's truly universal and can be used for many applications, like for instance an aroma bath, a herbal bath or a salt inhalation.

Made of special heat-resistant quartz glass with a high-quality swiveling stainless steel arm in black finish, Scent Trophy W will be a fine design enhancement for your sauna. It is very practical as well - the glass bowl can be easily removed for cleaning and the swivel arm allows to position the bowl over the heater just as you need it to create a stronger or a more gentle evaporation effect.

Fill the bowl with sauna essences or essential oils already when you start your sauna and have it filled with pleasant scents throughout the entire bathing session.

Explore more opportunities - try the included original Himalayan salt rocks to enrich the air with salt ions.

EOS Scent Trophy W - proudly made for you in Germany!

EOS Thermometer/ Hygrometer

High-quality, extensive accessories and precise measuring devices enable you to create an all-round comfortable, stylish ambiance.

Sauna thermometer - wall-mounting. Round shape Ø100mm/3.9".

Available in two versions with °C or °F temperature scale. The typical sauna climate range is color highlighted.

Temperature range: ~ 0-120°C/32-248°F.

Sauna hygrometer - wall-mounting. Round shape Ø100mm/3.9".

Humidity range: 0-100%rel. air humidity.

EOS Thermometer

EOS Hygrometer

EOS Excellent climate station

For carefree sauna pleasure, everything should be tailored to your individual needs down to the smallest detail. The high-quality climate measuring stations with a combination of thermometer and hygrometer, with a handcrafted wooden frame made of fine walnut or maple, are particularly suitable for the optically sophisticated design of an exclusive sauna. A powder-coated metal plate in anthracite pearl effect is set in the frame to hold the measuring devices.

Ø100mm/3.9" thermometer and hygrometer, measuring range: ~0-120°C or 32-248°F and 0-100% rel. air humidity.

Dimensions: 340×195mm/13.4×7.7"
