

Black Line sauna heaters

for the perfect sauna experience

Black elegance

A particularly classy ambience can be achieved through the elegant, black color of the heater and control unit, the technical parts of your sauna. Eye-catching yet discreet – the quality sauna heaters of the Black Line series by EOS unfold an extremely elegant, powerful line in your sauna.

What is important for utmost relaxation is, however, still the perfectly matched combination of sauna heater and control unit. This is the only way an excellent wellness experience can be created. Use this opportunity so you can devote yourself simply and comfortably to the relaxation of body and soul.

Treat yourself to the perfect sauna experience and have a pleasant and relaxing day. With luxury class sauna engineering from EOS.

Black Line sauna heaters

EOS Gracil | Bi-O Gracil black series

The **EOS Gracil black series** stands out through its straight-lined design and very space-saving construction – only 25cm depth as floor-standing model and 27,5cm depth as wall-mounting model (3cm gap to the wall). Triple-shell construction. Thanks to the recessed terminal box EOS Gracil is a great match for compact saunas.

The **EOS Bi-O Gracil black series** is additionally equipped with a built-in vaporizer on the right (2l) and herbs bowl. Integrated dry-run protection with acoustic alarm.

Rock store fits approx. 20kg stones despite very shallow construction.

Outer shell: matt black finish
Dimensions HWD: 760×505×250 mm (Gracil)
740×505×275 mm (Gracil W)
760×560×250 mm (Bi-O Gracil)
740×560×275 mm (Bi-O Gracil W)

7,5kW	7 - 10m³	94 7247 / 94 7327
9,0kW	9 - 14m³	94 7248 / 94 7328

EOS Cubo Avantgarde | Bi-O Cubo black

EOS Cubo Avantgarde black: Premium class sauna heater for private and commercial saunas. Striking, distinctive design thanks to the stylish rock store extension frame with white quartz stones. Uniform appearance on all sides due to the (included) rear wall.

10kg quartz stones are included in the delivery and are stacked on top of regular 25kg sauna stones.

EOS Bi-O Cubo black: with a built-in vaporizer placed underneath the heating elements (approx. 9l), herbs and essences holder. Integrated dry run protection with acoustic alarm. Water level indication at the front panel.

Rock store fits approx. 25kg stones.

Outer shell: matt black finish
Dimensions HWD: 720×400×385mm (Cubo Avantgarde)
950×400×395mm (Bi-O Cubo)

EOS BlackRock black

High-performance floor-standing sauna heater for sauna cabins up to approx. 30m. Reinforced stainless steel construction with uniform appearance on all sides. No rear side, no protruding terminal box.

High-contrast design with side panels with all sides and top with stylish matt black finish.

Thanks to an optional 3kW vaporizer, the EOS BlackRock can also be used as Bi-O version for humid sauna operation. Retrofitting possible on site.

Rock store fits approx. 40kg stones.

Outer shell: Stainless steel, side panels with matt black finish

Dimensions HWD: 830×555×555mm

Brackets for guard rail EOS BlackRock black	94 7325	

EOS Herkules S25 | S60 black series

EOS Herkules S25 black: Exclusive luxury class sauna heater for private and commercial saunas. Thanks to the flat rear side panel with the recessed terminal block, these heaters may be installed in front of glass panels or in the center of the sauna. 25kg sauna stones included in the delivery.

EOS Herkules S60 black: High-performance heater. Thanks to the extra large rock store and the included 60kg sauna stones, EOS Herkules S60 models offer an exceptional heat storage and powerful steam shocks.

Also available as ‘Vapor’ version with a built-in 2kW vaporizer which allows to create various climate forms, from hot and dry to mild and humid.

Outer shell: Stainless steel, matt black finish
Dimensions HWD: 750×400(*450)×385mm(S25 Serie)

15,0kW	18 - 25m³	94 7691 / 94 7678

EOS Herkules XL S50 | S120 black series

EOS Herkules XL S50 black models have a unique design featuring an innovative construction with two separate rock stores. Two 25kg large rock stores provide a perfect balance between strong air convection and optimal heat storage capacity.

EOS Herkules XL S120 black: Two separate rock stores with up to 120kg stones ensure an excellent temperature stability and heat storage capacity. The unique construction with rock stores above the heating elements provides continuously high performance and reliability.

Allows to make water splashes alternately on the left or on the right side for more steam and sauna enjoyment. Also available as ‘Vapor’ version.

Outer shell: Stainless steel, matt black finish
Dimensions HWD: 750×750×385mm (XL S50 Serie)

Black Line sauna heaters

EOS Mythos S35 black | S45 black

Floor-standing sauna heater with exclusive matt black finish on all sides for private and commercial saunas. The special highlight are the black Cubius stones (included in the delivery) that perfect the design of the heater.

EOS Mythos heaters are also available as a Vapor model. The vaporizer is not built-in, but can be simply mounted to the left or right side or on both sides which gives you more design options. Available with 2kW and 3kW power. Retrofitting possible on site.

Mythos black is available as S35 model with 35kg stones and as S45 model with 45kg stones.

Outer shell: Stainless steel, matt black finish
Dimensions HWD: 840×420×370 mm (S35)

Black Line control units

EOS EmoTec D | H

EOS EmoTec D - for dry sauna
EOS EmoTec H - for dry & humid sauna

Premium class digital control unit for demanding private and commercial operation.

EOS EmoTec features a separate slim-size display panel with a TFT colour display with menu navigation in 19 languages. The jog-dial knob allows to reach all essential functions and makes settings in seconds.

Many advanced functions - such as extended week timer, restricted access modes, energy saving ECO or power boost HOT mode. Additional extension modules for music and colour light control are optionally available.

EOS EmoTec H - with humidity control, for all EOS Bi-O type sauna heaters. Humidity control effects either with proportional to time switching or as per relative air humidity (requires optional humidity sensor).

The very large scope of fine tuning tools and functions allows to customize control for individual needs.

Model	Item no.
EOS EmoTec D black	94 7256
EOS EmoTec H black	94 7257

EOS EmoStyle D | H

EOS EmoStyle D - for dry sauna
EOS EmoStyle H - for dry & humid sauna

Luxury class digital control unit for demanding private and commercial sauna cabins.

Exclusive design - stylish display panel with glass front.

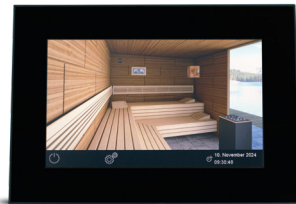

The display panel may be installed remotely at up to 100m distance. For flush-mounting or surface-mounting installation. With TFT colour display with menu navigation in 19 languages, operation via capacitive buttons.

All functions as the EOS EmoTec series models.

Additional extension modules for music, coloured light, remote control and others are optionally available.

EOS EmoStyle H - with humidity control, for all EOS Bi-O type sauna heaters. Humidity control effects either with proportional to time switching or as per relative air humidity (requires optional humidity sensor).

Model	Item no.
EOS EmoStyle D black	94 6314
EOS EmoStyle H black	94 6319

EOS EmoTouch 3

Innovative touchscreen control system - for saunas, infrared cabins, steam rooms or hammams.

EOS EmoTouch 3 can control both dry and humid sauna operation at the highest level of demands. A true "high end class" experience for your entire spa, whether for private or commercial use.

Control of up to **8 cabins** from just one display panel (using extensions). Combine saunas, steam baths, hammams and infrared cabins as you wish - one control panel provides fast, simple and easy access to all connected cabins and their functions.

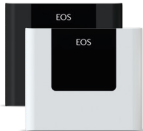

The 7" capacitive colour touchscreen display with the patented graphic user interface featuring a photorealistic interactive cabin interior takes the operation to a completely new level of comfort. Smart guided setup, menu navigation in 20 languages, on-site update possibility, and fine tuning tools - leaving literally no wish unfulfilled.

Every connected cabin can be easily enhanced with additional control features - for example you can also control music or LED coloured lighting.

Model	Item no.
EOS EmoTouch 3 black (sauna)	94 6504
EOS EmoTouch 3 black (hammam)	94 6991

Power Extensions

For sauna heaters with 10.5kW or more power you will need a power extension unit, like PEB 10 (10kW) or contactor boxes PEB 18 (18 kW) / PEB 36 (2×18kW).

PEB 10 CA / CW (10KW)
Available in anthracite (CA) or white (CW).

PEB 10 ET (10KW)

PEB 18 (18KW)

PEB 36 (36KW)
