

Infrared systems

for deep relaxation

Comforting warmth for body and soul

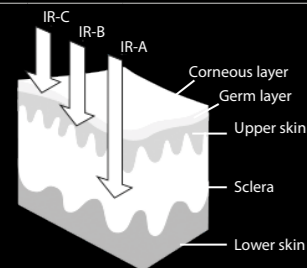

With infrared systems from EOS you will create the perfect basis for powerful, soothing heat.

Thanks to the short heat-up times, the high-quality IR heaters are very quickly ready for operation, as it does not heat the surroundings, but the body itself. IR heat has been proven to have a positive effect on health – the gentle heat relieves tension and can be beneficial in the treatment of pain.

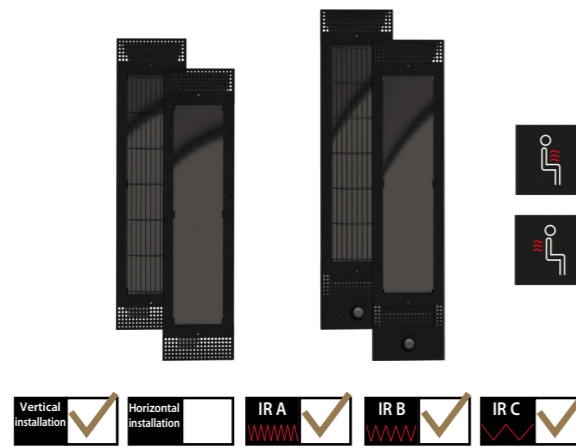

IR heaters from EOS let you experience a pleasant feeling of well-being and ensure a varied wellness experience. All EOS IR heaters are equipped with a specially flocked protective grille and thus offer optimal protection against accidental contact.

With the perfectly matched control units from EOS with numerous additional functions, the infrared experience becomes an even greater pleasure and leaves nothing to be desired.

	IR-A	IR-B	IR-C
Radiation	Short wave radiation	Medium wave radiation	Long wave radiation
Skin depth	Sub-skin Subcutis	Upper skin Dermis/Epidermis	Upper skin Epidermis
Effect	Deeper impact	Warming of the upper skin	Warming of the upper skin

INFRARED HEATERS

EOS Vitae Protect Compact series

IR heater for sauna- and IR warming cabins

EOS Vitae Protect Compact: incl. special ceramic glass filter for additional dispersion of the infrared heat and humidity protection. Available with or without protective flocked safety grill (black).

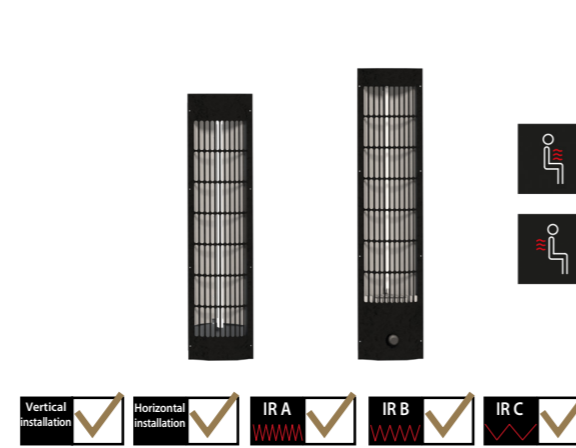

VITAE quartz-glass emitter with 350, 500, 750 W. The versions 500 W and 750 W feature a built-in inrush current limiter. Full-spectre range – IR-A, IR-B und IR-C, full power output in less than 1 sec. With pre-assembled housing with reflector shield and protective flocked safety grill (black). With 3 m silicone coated cable 3 x 1.5 mm².

Dimensions HWD: 795 x 200 x 60 mm

EOS Vitae Protect+ Compact: as Vitae Protect, but with built-in dimmer for quick and easy adjustment of the heating intensity. A separate dimmer is no longer required.

Dimensions HWD: 885 x 200 x 60 mm

Model (with / without protective grill)	Item no.
EOS Vitae Protect Compact (350 W)	94 7293 / 94 7287
EOS Vitae Protect Compact (500 W)	94 7294 / 94 7288
EOS Vitae Protect Compact (750 W)	94 7295 / 94 7289
EOS Vitae Protect+ Compact (350 W)	94 7296 / 94 7290
EOS Vitae Protect+ Compact (500 W)	94 7297 / 94 7291
EOS Vitae Protect+ Compact (750 W)	94 7298 / 94 7292

EOS Vitae Compact series

IR heater for sauna- and IR warming cabins

EOS Vitae Compact: VITAE quartz-glass emitter with 350, 500, 750 W. The versions 500 W and 750 W feature a built-in inrush current limiter. Full-spectre range – IR-A, IR-B und IR-C, full power output in less than 1 sec.

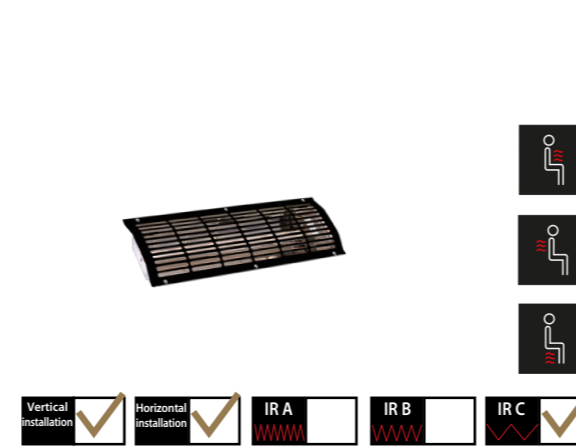

With pre-assembled housing with reflector shield and protective flocked safety grill (black). With 3 m silicone coated cable 3 x 1.5 mm².

Dimensions HWD: 745 x 185 x 65 mm

EOS Vitae+ Compact: as Vitae, but with built-in dimmer for quick and easy adjustment of the heating intensity. A separate dimmer is no longer required. Not suitable for horizontal installation and for installation in the cabin ceiling – risk of fire due to due to heat congestion!

Dimensions HWD: 815 x 185 x 65 mm

Model (with protective grill)	Item no.
EOS Vitae Compact (350 W)	94 6502
EOS Vitae Compact (500 W)	94 5450
EOS Vitae Compact (750 W)	94 5451
EOS Vitae+ Compact (350 W)	94 6997
EOS Vitae+ Compact (500 W)	94 6998

EOS IRS 30 Ceramic

IR heater for sauna- and IR warming cabins

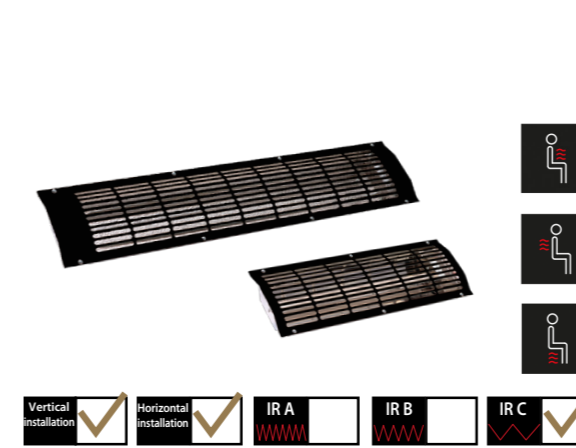

With 300 W ceramic emitter, long-wave IR-C range. Reflector shield of polished aluminium.

With protective flocked safety grill (black). Completely assembled with 3 m silicone coated cable 3 x 1.5 mm².

Recommended e. g. as calf heater, for horizontal installation in the area of the calves.

Dimensions HWD: 560 x 185 x 65 mm

Model	Item no.
EOS IRS 30 (300 W)	94 1878

EOS IRS 35 | IRS 40 RHK | IRS 50 RHK

IR heater for sauna- and IR cabins

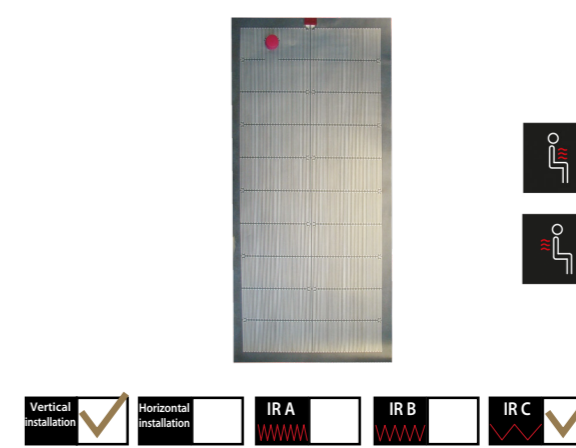

Affordable entry-level model with 350 W, 400 W or 500 W, long-wave IR-C range.

With protective flocked safety grill (black). Completely assembled with 3 m silicone coated cable 3 x 1.5 mm².

Dimensions HWD: 900 x 185 x 65 mm (EOS IRS 35/50)

Dimensions HWD: 560 x 185 x 65 mm (EOS IRS 40)

Model	Item no.
EOS IRS 35 (350 W)	94 4305
EOS IRS 50 (500 W)	94 4306
EOS IRS 40 (400 W)	94 4012

EOS IR-Heating foils

Heating foils for salt caves, IR- and warming cabins

For concealed installation e. g. behind wooden panelling. Flat and highly flexible. Recommended inner wall thickness up to max. 12 mm. Long-wave IR-C range.

With automatic on-surface thermostatic limiter 100 °C. Working temperature approx. 90 – 100 °C.

Available in various sizes and power outputs.

For technical reasons, the effective output can deviate from the nominal value by up to +5%/-10%.

Model	Foil (H x W)	Surface (H x W)	Item no.
IRF 650 W	1700 x 800 mm	1620 x 720 mm	94 3742
IRF 550 W	1450 x 800 mm	1370 x 720 mm	94 3743
IRF 450 W	1600 x 600 mm	1520 x 520 mm	94 3744
IRF 350 W	1250 x 600 mm	1170 x 520 mm	94 3745
IRF 275 W	1600 x 400 mm	1520 x 320 mm	94 3835
IRF 90 W	600 x 300 mm	520 x 220 mm	94 3891

INFRARED SYSTEMS

EOS InfraSteam

Compact slim-size vaporizer for IR-warming cabins.

With built-in control unit. Very slim, space-saving design. Manual water tank filling through the removable essence bowl. Integrated dry-run protection with acoustic low water alarm. Water tank with approx 1.5 l volume.

With pre-mounted 3 m mains cord.

Dimmer

For use in the cabin. Especially suitable for Vitae quartz glass heater for a quick adjustment of the heating intensity. Maximum load up to 1 kW.

Top cover

Practical cover panel for corner installation of IR heaters. With protective flocked surface coating (black). One pair.

Model	Item no.
EOS InfraSteam	94 4140A
Dimmer	94 7467
Top cover for EOS IRS / Vitae series	94 4566
Top cover for EOS Vitae Protect series	94 6596

EOS InfraTec Classic

For IR-cabins

Illuminated LCD-Display (time, functions, error-messages). Temperature control range 30 °C to 70 °C. Variable heating time 1 to 99 minutes. Switch for cabin light.

Integrated main on/off switch. Flush-mounting installation.

Includes temperature sensor with 3 m cable.

Power supply: 230 V N ~ 50 Hz
Switching capacity: 3500 W

EOS InfraTec Premium

For IR-cabins (dimnable and switchable)

Compact size flush-mounting display panel and a separate relay box. Illuminated LCD-Display (time, functions, error messages), multi-language menu navigation.

Temperature control range 30 to 70 °C. With the optional temperature sensor for heating foils control, regulation can be carried out either as per air temperature or heat intensity.

The control unit has three outputs (2 x 1500 W dimmable, 500 W switchable) and cabin light control (230 V output).

Includes temperature sensor with 5 m cable.

Power supply: 230 V N ~ 50 Hz
Switching capacity: 3500 W

EOS EmoTec IR

For IR-cabins (dimnable and switchable)

Premium class digital control unit for demanding private and commercial operation.

Very large scope of functions and features. Additional extension modules for music and colour light control are optionally available.

Temperature control range 30 to 70 °C. Heating control as per air temperature or heat intensity.

Three separate outputs: two are dimmable, one is switchable – so you can create individual zones or heating groups (e.g. back, front, side, etc.).

Supports all types of IR emitters and heating foils. Total power output can be increased to 10.5 kW with extension modules SBM-IR.

Includes temperature sensor with 5 m cable.

EOS InfraStyle | InfraStyle i

For IR-cabins (dimnable and switchable)

Luxury class digital control unit for demanding private and commercial IR-cabins.

Luxurious display panel with glass front and capacitive buttons. Available in black or white design. Functions and features as EOS EmoTec IR model.

Includes temperature sensor with 5 m cable.

EOS InfraStyle i: Luxury class digital control unit with display panel suitable for installations **inside** the IR-cabin.

Exclusive display panel design with glass front and stylish wooden inlay of maple or walnut with integrated capacitive button for quick and easy operation.
