

Urban Sauna

for compact sauna and infrared cabins

Max

Min

made in Germany

Small space,
great wellness

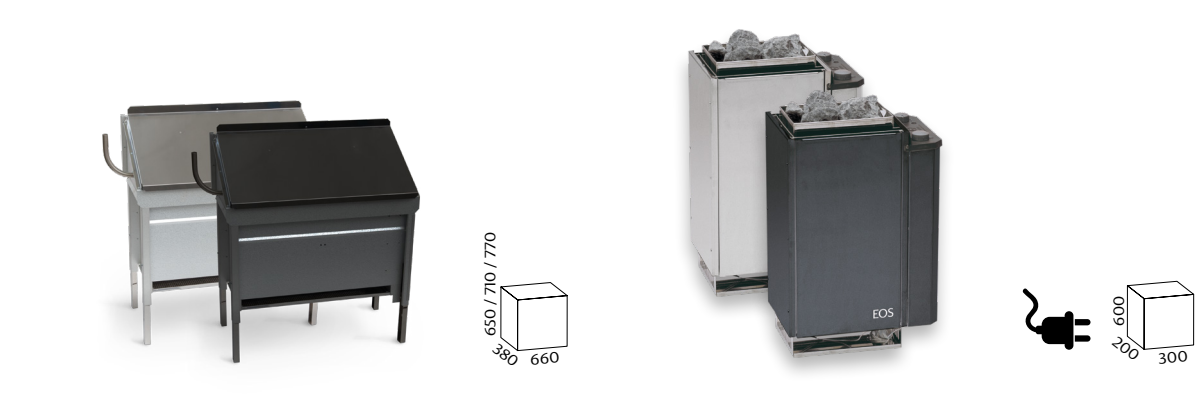

From now on the lack of space is no longer an excuse for not having a sauna in your own home. This dream can also be easily realised in a city apartment. Great sauna experience even in small rooms! The space-saving sauna heaters from EOS allow to make your sauna fit almost any room.

EOS Saunatechnik delivers the perfect combination of design and innovation with “made in Germany” quality. With our advanced control units sauna becomes an even greater pleasure.

Why not enhance your sauna with infrared radiators for more flexibility and fun. Indulge your body and mind with a perfectly relaxing and highly effective heat treatment at mild temperatures.

Let the dream of your own wellness oasis within your own four walls come true. Take good care of yourself!

Sauna hardware

EOS Inviso Mini

High-quality underbench sauna heater for dry Finnish sauna. Special design model for concealed installation under the sauna benches.

With only as little as 10cm gap between the sauna wall and the screen wall Inviso Mini provides you the most space-saving solution on the market while still ensuring all benefits of a sauna bath with the possibility to make traditional water splashes. Includes safety grill and water splash kit.

3-fold height adjustment possible.

Rock store fits approx. 15kg sauna stones.

Also available in other performance classes.
