

Operation

Start time preselection (timer)

Press **MODE** button - „temperature“ line becomes highlighted.

Use  to select the „Start time“ function.

Press **MODE** button again - start time value starts to flash.

Use  /  to set the hour, press **MODE** briefly, then set minutes using  / , then press **MODE** for 3 seconds, to confirm setting.

To activate the timer press briefly the  button. The symbol  will appear in the top line on the screen and the start time will start to flash.

To disable the timer press again the  button - the symbol  will disappear.

To activate the timer in recurring switching mode, press  > 5 seconds - until the symbol  starts flashing.

Note: You cannot start your sauna if the start time has been programmed. Set the start time back to „--:--“, to return to default manual switching.

Child lock (keypad lock)

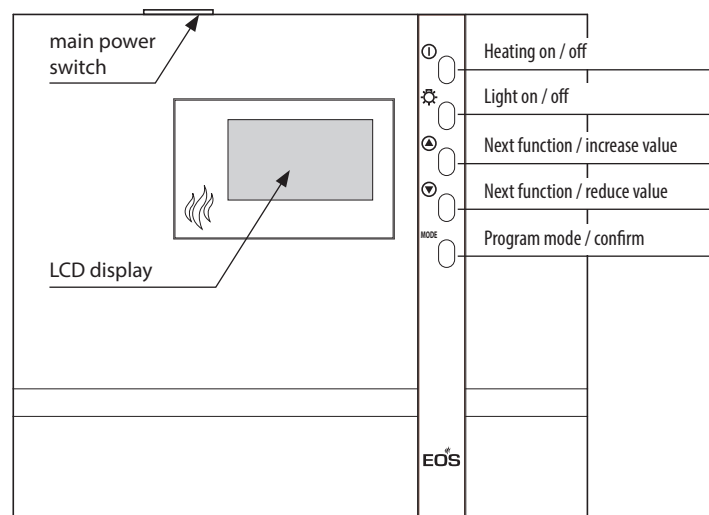

Press the buttons  and  for 3 seconds. The unit will be locked, the symbol  will appear on screen. Press these buttons again for 3 seconds, to unlock the unit. The symbol  will disappear.

Repeat setup

To repeat the setup, press the buttons  and **MODE**. Now you can repeat the basic setup, like setting the language, time, Life-Guard, etc.

Note: This function is not accessible by active keypad lock or holiday home mode (limited access mode). Unlock the unit to access the setup.

Overview

Important notice

The present quick-stand guide does not intend to replace the complete operation manual. Please make sure to read the complete installation and operation manual before using the control unit.

Econ D2

Quick-start guide

Functions

Econ D2 is a modern electronic control unit for dry (Finnish) saunas with a large scope of functions for the fast and convenient operation of your sauna cabin.

Essential features & functions:

- Menu navigation in 12 languages.
- Heating on / off.
- Temperature control - from 30° to 115°
- Heating time with 1 min. step - up to 6 h by home use (default) or up to 12 h by commercial use.
- Start time pre-selection up to 24 h in advance (single switching) or automatic recurring switching (commercial use).
- Cabin light on / off (230 V).
- Child lock (keypad lock).
- Holiday home or holiday park modes (restricted access).
- 4 user profiles with pre-set popular climate forms.

Safety:

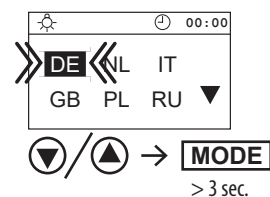

Your Econ D2 control unit is equipped with effective, modern safety features to ensure not only a pleasant but also a safe sauna bath.

- Automatic electronic temperature control.
- Automatic cut-off by overheating at 139°C.
- Light comes on automatically along with heating and stays on for min. 30 minutes after the heating stops.
- Integrated fine fuses protect electronics and light output.
- Limitation of heating time duration to up to 6 h (home use) or to 12 h (commercial use)
- Child lock or access restriction.
- Life-Guard timer function.

Basic setup

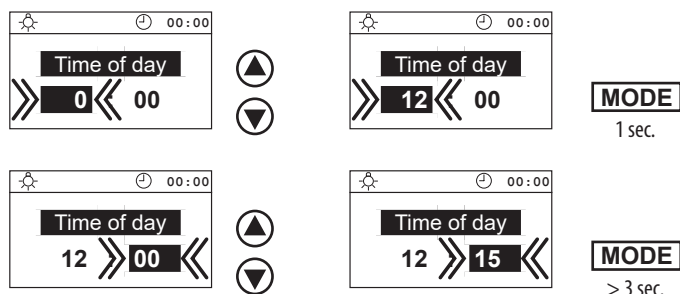

Step 1 - Language

Select language with \downarrow/\uparrow , then press **MODE** >3 sec, to confirm setting.

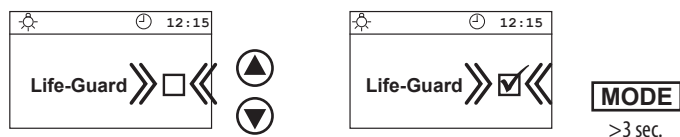

Step 2 - Time of day

Set hour with \downarrow/\uparrow buttons, then press **MODE** briefly, set minutes with \downarrow/\uparrow , then press **MODE** for 3 sec to confirm setting.
